

Northeastern NY

Cancer Services Program

Your partner for cancer screening, support and information

During these challenging times, Cancer Services Program (CSP) of Northeastern NY is still here for you! Don't let a lack of health insurance keep you from getting tested for breast, cervical, and colorectal cancer. The New York State Cancer Services Program can help uninsured women ages 40 and older and men ages 50 and older get a free screening. Call 1-866-442-CANCER (2262) for information or visit:

www.health.ny.gov/diseases/cancer/services/

For the local CSP office, call 518-324-7671 for any questions, concerns, and to see if you are eligible.
